Subject: RE: Seismicity Report

Phil,

Would you recommend that when Bill calls Milton Rister that he remind him that one of his managers (Doug Johnson, who retired last year) was involved in the development of the report?

Tim sounds good, but I don't really know him. Can one of you who does give him a call?

Larry might but I think Phil may have asked him earlier. Larry does not like to stand out even when it reflects favorably on his program.

Oklahoma might say something favorably. We certainly have helped them on this issue. Tim Baker at OCC?

Peter Grevatt just called me and said the UIC Seismicity Report will be posted tomorrow. He asked if any of our state UIC/Oil and Gas Directors might be willing to say something publically in support of the effort. Off the top of my head, I said Larry Bengal in AR might be the most likely, although I'm not sure how much AOGC was involved in the report.

Any thoughts from your perspective on this?

Also, if you get the link for the posting tomorrow, please forward it to me. I may call Milton Rister to give him a heads up, and he'll probably ask for a copy.

Thanks.

Bill
